DISASTER INFORMATION FOR HOMEOWNERS

Other Tips
• Contact FEMA and/or your insurance company as soon as possible to see if your losses are covered or if there is assistance available.
• Try to document your losses if it is safe to do so by taking pictures of the damage and making a list of any property that was damaged or destroyed. Try to include a description of the item, the date you purchased it, what it cost at the time, and what you think it would cost to replace it.
• If you have trouble dealing with your insurance company or if you think they improperly denied your claim, you can make a complaint with the S.C. Department of Insurance by calling (800) 768-3467.

Housing Cases Accepted
Access to Quality Housing
Evictions
Foreclosures

South Carolina’s guide to free legal resources
Homeowners Insurance

- If your home or property was damaged in a disaster, the first thing you should do is contact your insurance company if you have homeowners insurance.

- Homeowners insurance usually covers damage caused by fire, tornado, and other kinds of natural disasters. However, it usually does not cover damage caused by a flood. For that, you usually need to have a separate flood insurance policy. You should check with your insurance company regardless to find out what kind of coverage you have.

- If your insurance policy has been lost or destroyed, you should be able to get a replacement from your insurance company. If you cannot, you can locate the policy effective as of the date of your loss by visiting the S.C. Dept. of Insurance’s website (www.doi.sc.gov) and clicking “Search SCDOI Database” and then “Search for Company Filing.”

- You may be eligible to receive money for living expenses from your insurance company if you need it.

Mortgage Payments

- If you have a mortgage, you must continue to pay it even if your house is damaged or you cannot live in it.

- If you are having trouble paying your mortgage, you should check with your lender because some offer grace periods that allow you to stop making payments for a while (although interest may continue to be added). Be aware that you also may have to bring your mortgage payments current at the end of any grace period either by paying all past due payments or through a mortgage loan modification.

If you are having trouble paying your mortgage because you lost your job or had a reduction in your income as a result of the disaster, you may be eligible for:

- Disaster Unemployment Assistance—Call the S.C. Department of Employment and Workforce at (866) 831-1724 or go to www.dew.sc.gov to find out if you are eligible.

What If I Don’t Have Insurance or My Insurance Doesn’t Cover the Damage to my Property?

- If the damage to your property is not covered by insurance, you may be able to get assistance from the Federal Emergency Management Agency (“FEMA”).

- You can find out if FEMA assistance is available and apply for it by calling 1-800-621-3362 or going to www.DisasterAssistance.gov.

What if I Live in a Condominium?

- If you had owner’s or renter’s insurance, you should contact your insurance company as soon as possible.

- There may also be an association insurance policy that covers other losses. You should contact that insurance company or someone with your owner’s association to get more information.
